

Amerimax Classic French Door. . . better by design!

- Tempered Ameriglass™ insulating glass featuring warm edge spacer
- Fusion welded frame and sash for greater strength and durability.
- Multiple chambers provide layers of insulation even in the warmest or coldest temperatures
- Full perimeter weather strip provides protection from air and water infiltration.
- Sloped anodized aluminum sill resists wear

Amerihinge™ System

Full height anodized aluminum gear hinge provides incredible structural strength to door panel

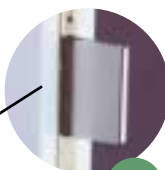

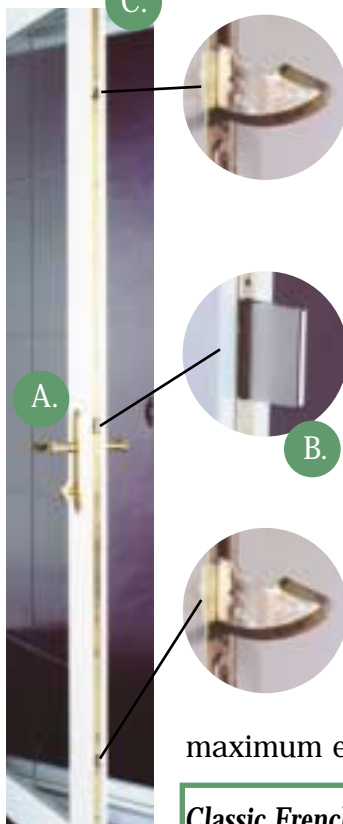

Available in White and Desert Sand

French Style Door

Center Hinged Door

- A. Multi-point lock system with solid brass center deadbolt and key lock for optimal safety.
- B. Standard center deadbolt with keylock affords optimum security.
- C. Additional flush bolts at head and sill on inactive panel of French door.

Amerimax Classic French Doors are available with center hinged or True French styles. High performance Ameriglass™ with Argon is standard and provides maximum energy efficiency and UV protection.
